

# Kate loves horse riding

## Een Engels clipje over paardrijden

**Horses are Kate's favourite animals. It's fun to ride them and even better to win prizes in competitions!**

I like riding horses, my favourite horse is Ainsley. I can trot, canter and walk. I like to go fast it feels like I am flying. We go like this. It makes the horse think it's time to jog. Because trotting is jogging for horses. Ainsley like carrots, hay, apple. And you put your hand out flat and you wait for the horse to just nibble it out of your hand. It feels tickly. And they have warm noses and they're very soft. If you're good at horse riding you might get a trophy and rosettes. When I won the trophy it felt like the happiest day ever.
