

# My shadow

## Een Engels liedje over mijn schaduw

My shadow  
My shadow  
Everything I do  
My shadow does, too

My shadow can jump  
My shadow can kick  
My shadow can catch a ball  
And everywhere I go  
It can go with me  
It can even catch me when I fall

My shadow and me  
My shadow and me  
My shadow is my longtime friend

We're together every day  
My shadow and me  
My shadow is my longtime friend

My shadow  
My shadow  
Everything I do  
My shadow does, too

My shadow and me  
My shadow and me  
My shadow is my longtime friend

We're together every day  
My shadow and me  
My shadow is my longtime friend
